

Microsoft Certified Database Administrator (MCDBA)

The Microsoft Certified Database Administrator (MCDBA) is the premier credential to demonstrate that you have the skills necessary to lead organizations in the successful design, implementation, and administration of Microsoft SQL Server databases. MCDBA on Microsoft SQL Server 2000 candidates need to pass three core exams and one elective exam that provide a valid and reliable measure of technical proficiency and expertise in the implementation and administration of SQL Server databases. The Windows 2000 exams and the Windows XP/Windows Server System exams for the MCDBA on Microsoft SQL Server 2000 certification are expected to remain available concurrently. The following certification information is provided as a reference for your convenience. Visit Microsoft's Certification site for the most up-to-date information regarding Microsoft Certifications.

MCDBA Certification Track

Core Track
